ABOUT ME

I am a passionate UI/UX Designer with a background in Information Technology, dedicated to creating intuitive and user-centric designs. I specialize in user research, wireframing, prototyping, and crafting responsive interfaces that blend functionality with aesthetics. Proficient in tools like Figma and Adobe Photoshop, I excel at transforming complex ideas into visually compelling and accessible solutions. With a keen eye for detail and a collaborative approach, I work with cross-functional teams to understand user needs, solve design challenges, and deliver impactful experiences that align with business goals.

WORK EXPERIENCE

Data Entry Operator (Internship)

2019 - 2021

Widya Dharma University

Pontianak, West Borneo, Indonesia. On-site

I carry out administrative tasks at Widya Dharma University, providing registration information to prospective students, collecting and organizing files, inputting data, and offering general administrative support.

Information Technology Staff

2021 - 2024

Widya Dharma University

Pontianak, West Borneo, Indonesia. On-site

I work as the Administrator for new student registration at Widya Dharma University, with additional responsibilities for maintenance, backups, and development of the registration website, along with other administrative tasks.
